ABOUT ME

Excited to start applying my knowledge professionally. I feel capable of performing efficiently and am eager to learn everything necessary to become a better professional.

EXPERIENCE

- **Freelance Development - Chemistry Website**

January 2024 - May 2024 www.chemval.com.ar/

Complete development of a website for a company. Includes connection to database to update products and features, deployment to production and server administration, such as the incorporation of professional emails, sending emails through the page, sketch design in Figma to work on it later and SEO for the positioning of the web in the Google search engine.

- **Freelance Development - Hairdresser Appointment Website**

March 2023 - August 2023

Website created for managing appointments for a home hairdressing service. Development includes application with a database, administrative panel, appointment requests, email notifications, among other features.

Next.js - JavaScript - CSS - MySQL

- **Personal Projects and Technical Tests**

Applications to gain experience and put them into practice. More details in my portfolio.

EDUCACIÓN

- **Technical Program in Programming**

Universidad Técnica Nacional - Mar del Plata 2021 - 2021

- **Course in JavaScript**

Udemy - In Course

- **Course *in Web Development***

Udemy - In Course

- ***Course in React.js, Next.js, Css, Html, Javascript, Node***
